QC.EXT.2026 // DESIGN PARTNER PROGRAM

Free AI training for your leaders, before we open the doors.

Your clinicians are already using AI. Most of your leaders have never been taught how to lead them through it, and nobody has shown them what good looks like. We are opening the Design Partner Program to 3 to 5 health systems and healthcare organizations ahead of the September 4, 2026 launch. There is no fee and no purchase commitment.

SEEKING

3 to 5 health systems

FEE

None

COMMITMENT

None

STATUS

Applications open

HEALTHCARE LEADERS WHO USE AI

What you get

Free course access for your people You nominate them. They go through the full six week core course at no cost, the same course that opens to the public at \$29.99 in September.

We run your cohort The scheduling, the progress tracking, and the expert feedback are ours to manage, not yours. Your team shows up and masters the work. Nobody on your staff administers anything.

We write your case study We do the work of turning what your team accomplishes into a documented case study, with your review and your written approval before a word of it is published.

QuadCo membership, free for the pilot term Design partners also receive QuadCo membership at no cost for the pilot term, ending when the cohort finishes.

What we ask in exchange

THE WHOLE TRADE

Organizational support and word of mouth. Nothing else.

Your organization stands behind the program internally, and the people who get value from it are willing to say so. No fee. No purchase commitment. No obligation to buy anything at launch. We need reference accounts more than we need prelaunch revenue, and we would rather be honest about that than dress it up.

What this is not

- Not a pilot of software your team has to stand up
- Not a consulting engagement with an invoice behind it
- Not a data project. We never touch your systems and never touch PHI
- Not a commitment to purchase seats at launch

The timeline

- Partners are selected before the first cohort opens September 4, 2026
- You nominate your people and we schedule the cohort together
- Six weeks, self paced, learned in the gaps of the day
- Case study drafted after the cohort finishes, published only with your approval

What gets signed. A short participation agreement covering the seat count, the case study review and approval rights, and confidentiality in both directions. No fee, no purchase commitment, and no auto renewal. The program does not involve protected health information, does not connect to your systems, and does not require a business associate agreement. If your legal team wants one anyway, we will sign it.

About us. The Quadrant Company is a knowledge company that helps healthcare leaders, clinicians and teams use AI safely and effectively in their own workflows.
